Izaro Gondra Alvarez

3D Environment and Prop Artist

izarogondra@gmail.com | Bilbao, Spain | linkedin.com/in/izaro-gondra

I'm a 3D environment and prop artist who just finished a Master's in Modeling & Texturing for AAA Videogames, building on top of my BFA in Digital Art and Animation. I've spent the last few years diving deep into the full environment asset pipeline. From early concepting and blockouts all the way through high poly sculpting, retopology, baking, texturing and integrating into Unreal Engine. I'm looking to bring my skills into a studio environment where I can contribute high-quality, optimized assets, collaborate with multidisciplinary teams, and continue growing as an artist.

SKILLS

3D Environment & Prop Art — Full asset pipeline | Modular environment design | High poly sculpting | Retopology & UV unwrapping | Trim sheet creation | Map baking | PBR texturing | Handpainted texturing | Engine integration & set dressing

Software — Maya | ZBrush | Substance Painter | Substance Designer | Marmoset Toolbag | Unreal Engine | Photoshop | Procreate | Illustrator | Premiere Pro

PROFESSIONAL EXPERIENCE

Arscade, *3D Environment Art Internship* 04/2026 – 06/2026 | Madrid, Spain
- Created and implemented stylised 3D props designed to integrate cohesively within a defined game environment and art style.
- Responsibilities spanned the full asset pipeline: high poly and low poly modeling, retopology, UV layout, map baking, and handpainted texturing in Substance Painter, with final integration into Unreal Engine.
- Gained production experience collaborating with an art team to maintain a consistent visual style and meet technical requirements.

Cauchoexpres, *Graphic Design Internship* 04/2024 – 06/2024 | Bilbao, Spain
- Worked directly with clients to understand their visual goals and produce design assets to brief.
- Coordinated with suppliers to ensure final deliverables met quality standards.
- Developed communication skills, attention to detail, and the ability to manage multiple projects simultaneously.

SOLO PROJECTS

Mouse Tavern, *Maya, ZBrush, Substance Painter, Marmoset Toolbag* 11/2025 – 12/2025
Stylised 3D prop recreated from an original concept art piece, with the primary challenge of preserving the handpainted aesthetic and character of the source illustration through the full 3D pipeline.

Cave, *Unreal Engine, Maya, ZBrush, Substance Painter, Marmoset Toolbag* 10/2025 – 12/2025
- 3D environment based on an existing concept art piece, with a focus on faithfully translating the original composition, lighting mood, and visual style into a real-time environment.
- Handled the full pipeline from Unreal Engine blockout through to textured final render.

GROUP PROJECTS

Orun, *Unreal Engine, Maya, ZBrush, Substance Painter, 27 Person Team* 05/2025 – 12/2025 | Bilbao, Spain
- Large-scale 3D production project. Served as Art Director through December, overseeing visual consistency across props, environments, and characters.
- Direct contributions included environment and prop concept art, modeling, and texturing, alongside reviewing and correcting assets from other team members to maintain production standards.

Global Game Jam 2025 - Bloops, *Unity, Maya, Substance Painter* 01/2025 – 01/2025 | Washington, United States
3D asset modeling and texturing, logo design, trailer editing, and menu assets.

Global Game Jam 2024 — Clown Academy, 01/2024 – 01/2024 | Bilbao, Spain
Maya, Substance Painter, 9 Person Team
Environment art, animation clean-up and coloring, trailer editing, and menu assets. Won Best Game Design Award (42 Urduliz).

Glimpse into the Past, *2D Animated Short Film, Photoshop, 9 Person Team* 09/2022 – 04/2023 | Bilbao, Spain
- Art Director on a completed 2D animated short.
- Responsible for overall visual direction alongside direct contributions to background environment design, storyboarding, and animation.

Running Ever After, *2D Platform Game, Photoshop, 15 Person Team* 09/2022 – 04/2023 | Bilbao, Spain
Contributed concept art, level design, and environment asset implementation to a 2D side-scroll platformer built on a custom engine.

EDUCATION

Voxel School, *Master's in Modeling & Texturing of Props and Environments for AAA Videogames* 10/2025 – 06/2026 | Madrid, Spain

DigiPen Institute of Technology, *Exchange Semester* 09/2024 – 05/2025 | Washington, United States

DigiPen Institute of Technology Europe, 09/2021 – 07/2024 | Bilbao, Spain
Bachelor of Fine Arts in Digital Art and Animation
